

Dear Chicken Shack Fans,

We are living in historic times and everyday life is rapidly changing. Know that we at Sobeck's Chicken Shack are going through this new normal right along with you. We are doing everything possible to ensure your health and safety is our top priority.

Be assured we are following all recommendations and guidelines by the local, state and federal governments including closing our dining rooms for dine in eating and switching to takeout and delivery service only.

For your safety and that of our team members, we've also put the following protocols in place:

- Counseling our teams to stay home if there is any concern at all about their health.
- Increasing hand washing frequency requirements.
- Increasing disinfecting of high-touch areas such as phones, keyboards, faucets, equipment, door handles, and rest rooms.
- Setting a maximum capacity of 5 customers at any time for takeout orders.
- Encouraging online ordering to reduce time spent in close proximity to others.

This is not the first crisis we have been through and it probably won't be the last. Back in 2003, during the Blackout, Sobeck's Chicken Shack was prepared and we served thousands of Michiganders great food even when the rest of the area was powerless. We banded together as one community and got through the crisis one day at a time.

We at Sobeck's Chicken Shack appreciate you looking to our small businesses to help feed your family. REMEMBER! You can always order online at chickenshack.com or use your DoorDash app or doordash.com for delivery.

As always, thank you all for your incredible support of Sobeck's Chicken Shack over the years.

Wishing you the very best,

The Sobeck family and all our owner/operators
